Missionaries to...

UKRAINE

and

RUSSIA

Mid-July thru Mid-August

Let us start by saying, “Many thanks to those who have helped with prayers and support.” We ended up the last half of July in Ohio. One church in Cincinnati took us on for support! At that church the sound man recorded a song that Joanna wrote and sang. The pastor wanted the Sunday morning crowd to hear her songs! After deciding to take us on, he challenged the church folks, “We’re not going to die on the vine!..Amen!”. I think that’s the right attitude! Later in the week we were out on the street evangelizing the downtown area of Columbus, OH. We’ve been able to do this frequently with convenience of meetings scheduled in the area. The Lord has directed me to a couple people, each time to witness to them about the Lord. Last time we went down there I met Joe. I felt led to give him my testimony. After a while, he opened up and told me how he nearly died from leukemia and that he knows he needs to start doing right. He told me that he called his mom early that morning to tell her that he wanted to get back into the Mormon church. After explaining to Joe that salvation is repentance toward God and faith in the Lord Jesus Christ, I asked him if he wanted to get saved, and he said, “Well, I’m going to get up with my mom’s church.” I said, “Wait a minute, I didn’t show you anything about joining any church, I said Jesus Christ said, ‘Ye must be born again.’.” I could tell by his face he realized he was wrong. He didn’t make an outward profession, but I really think the Lord used me to show him the truth! There are souls out there that need to hear the gospel! Much attendance is given to *Fox* news and *healthcare* reform but not about giving the “GOOD NEWS!” and *soul* reform! God gave his Son as a “bailout” to a bunch of thieves and robbers, destitute of the truth! Go forth, weep, and bear the precious seed—time is running out! The white throne is coming...and so is the judgment seat of Christ!

Finally, the faithfulness of our sponsors is responsible for our overall support level! One church has doubled it’s missions giving, and overall we are at nearly 85%! Sometimes I feel like a stock reporter giving the latest news to shareholders! Please keep sending up the prayers! —The Wiles family
